7545 BIG ULTIMATE CHIP

7545 chip is very high-end with its 80W of power and **4,800 lumens** of the brightness. Strict manufacturing arts makes Headlight U9 a high-end product.

TEMPERATURE CONTROLLER

In Headlight U9 we installed the proper controller chip **beside the LED chip**, which straight protect the chip from over 176°F. You can rarely see any other headlight with this position of temp. chip.

HIGH SPEED ROTATING FAN

The fan has **10,000RPM** of the rotation rate. It is an iconic breakthrough that the fan adjusts its rotation rate to different temperature of LED chip.

COPPER HEAT CONDUCTOR

You can rarely find tube conductor in the headlight, except U9. The cooling efficiency has been up to **350% higher** than general headlights.
